

StamTec

The Art of Elevating
Lift control Panels

Pricelist_2017

Traction_Lift_Controllers__1

1.1 Two speed traction lift controllers

Traction lift controller with Zero Board, Box 80 x 60 cm², with low and fast speed thermal overload relay and 2,2 Ah battery

Relays 11 Kw 740 €

Relays 18,5 Kw 800 €

Extras

Two doors box 15€

1.2 Traction lift controller with VVVF (Inverter, VVVF)

Traction lift controller with electronic board Zero with Delta Electronics Inc Inverter.

Box 100x80 cm², thermal overload relay, 2,2Ah battery

4kw/5Hp (11,5A)	1400 €
5,5Kw /7,5Hp(13A)	1600 €
7.5kW/10Hp (17A)	1800 €
11kW/15Hp (23A)	2000 €

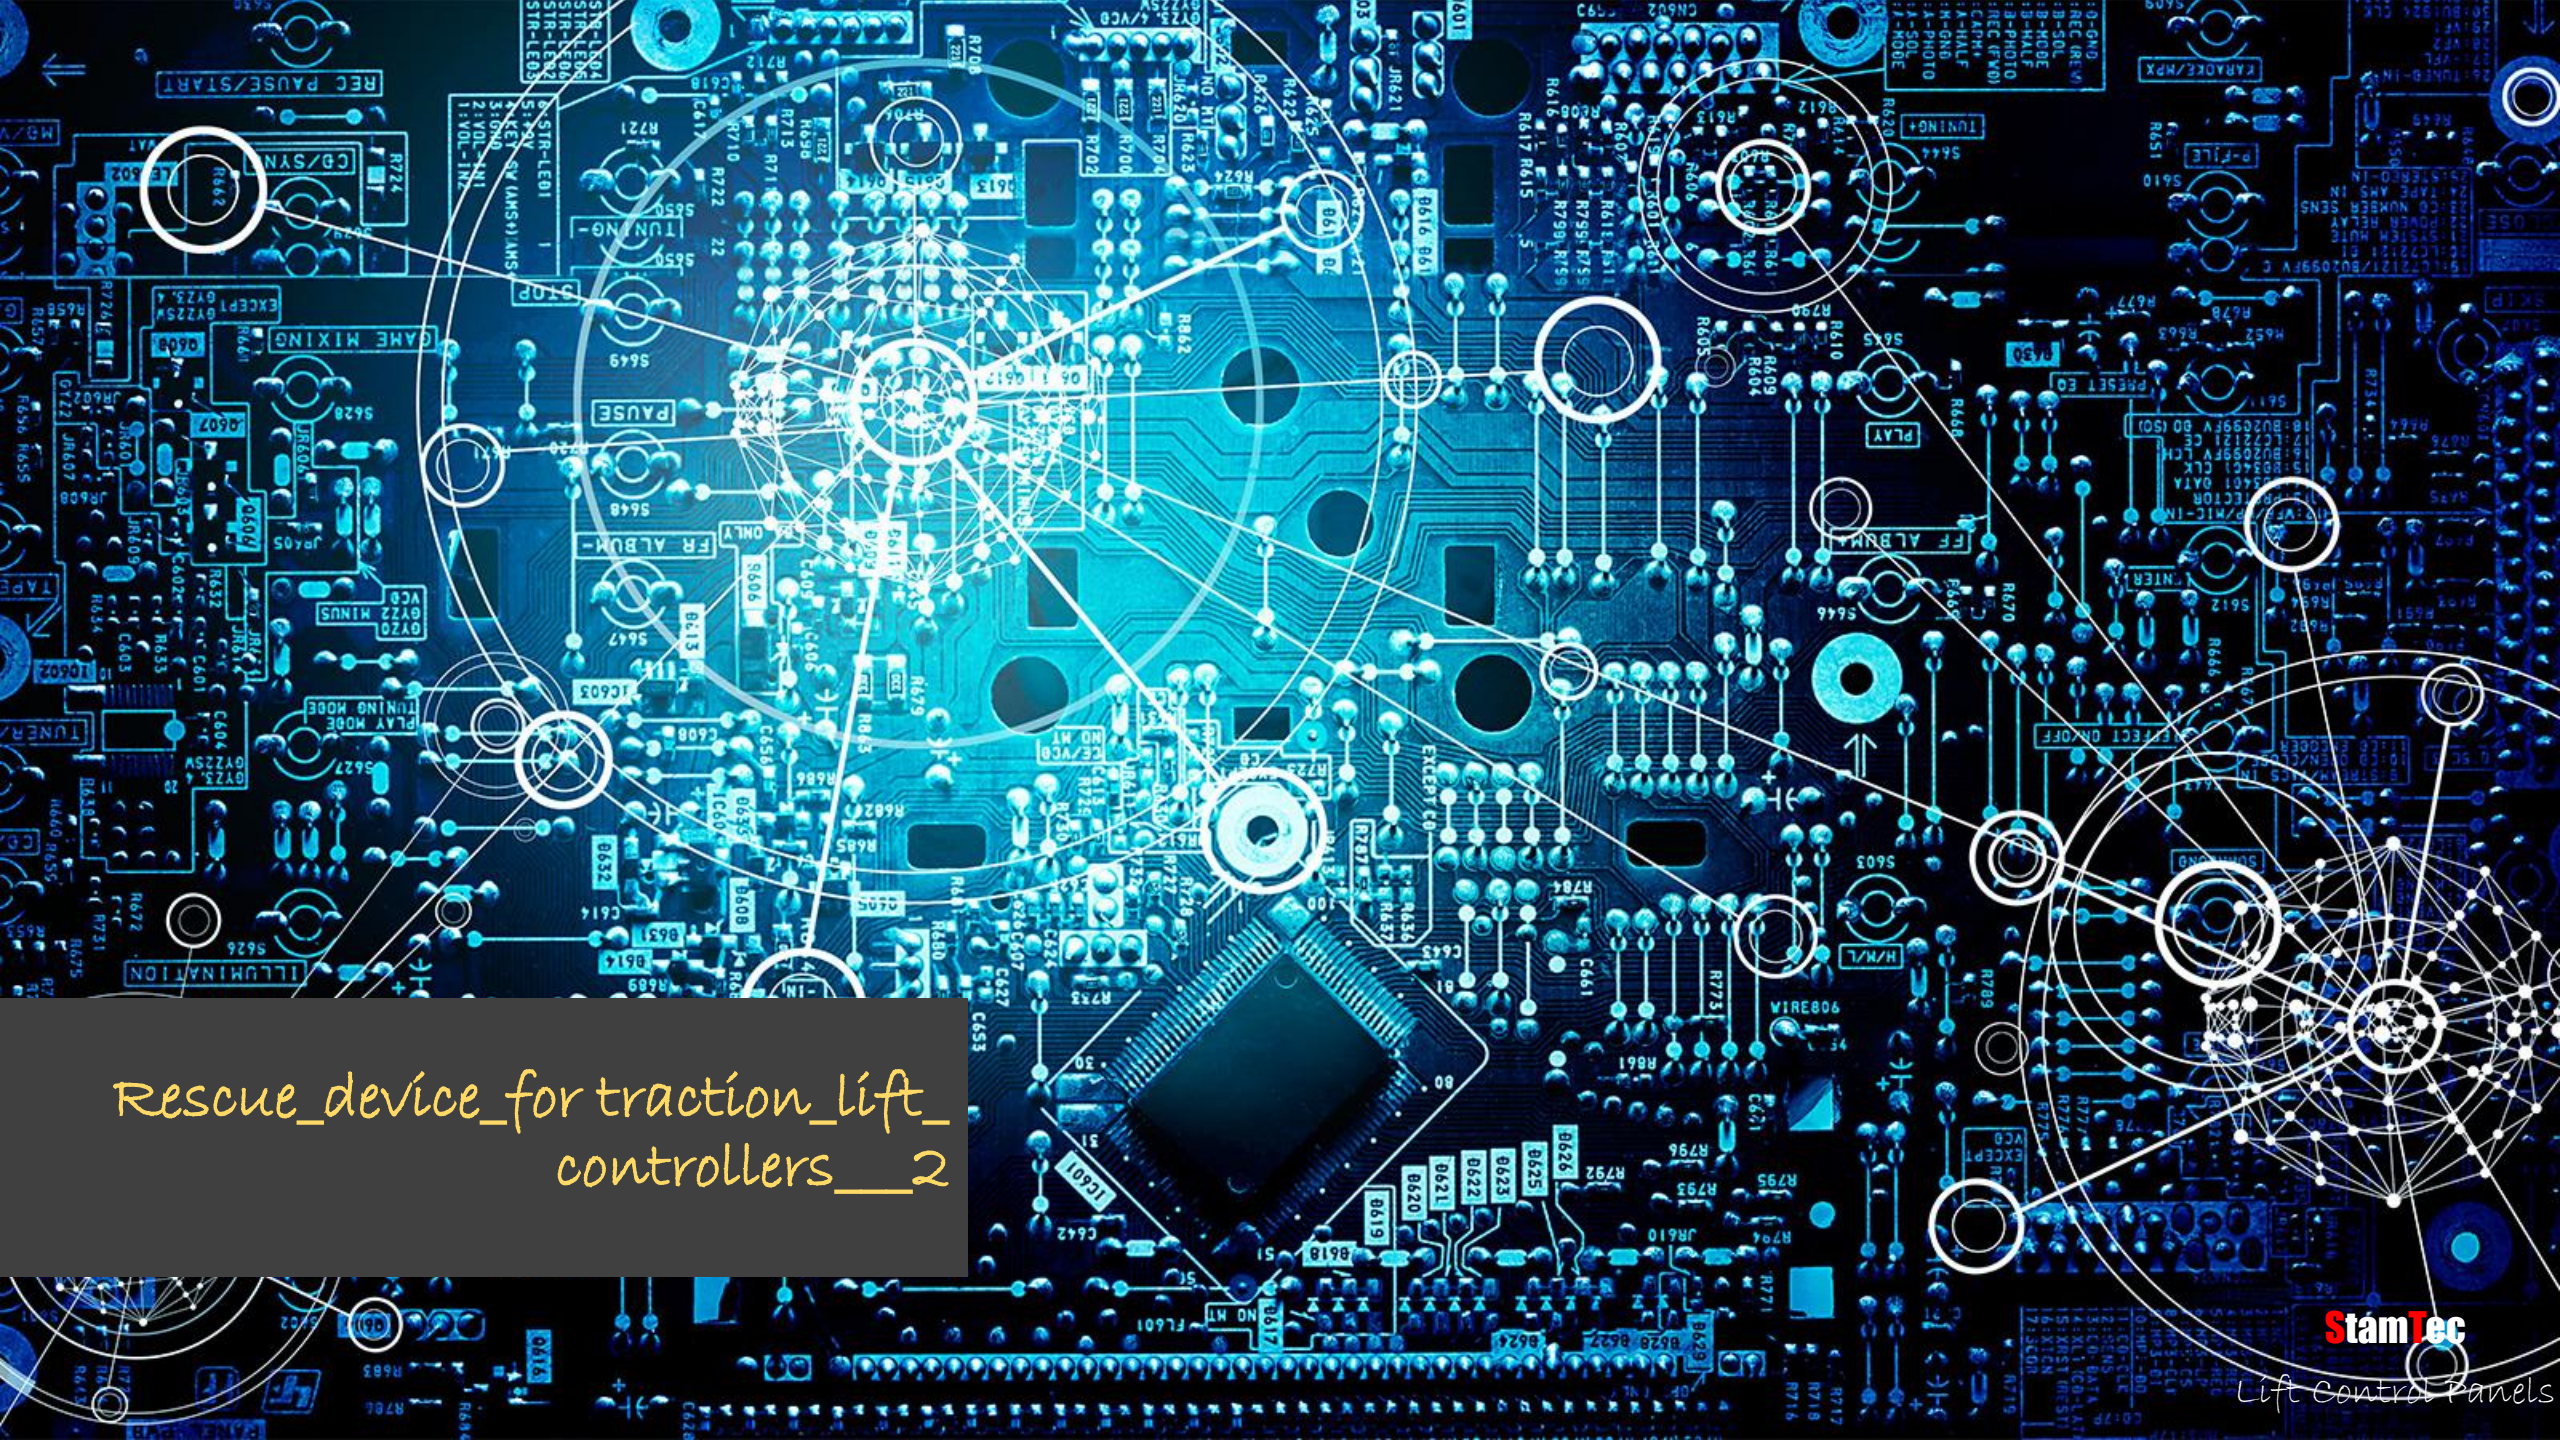

Notes

In the price is included magnetic switches, magnets, filter, resistance

When we choose VVVF Controller it is necessary the motor rated current (In) be in the limits Of the VVVF current output

StamTec

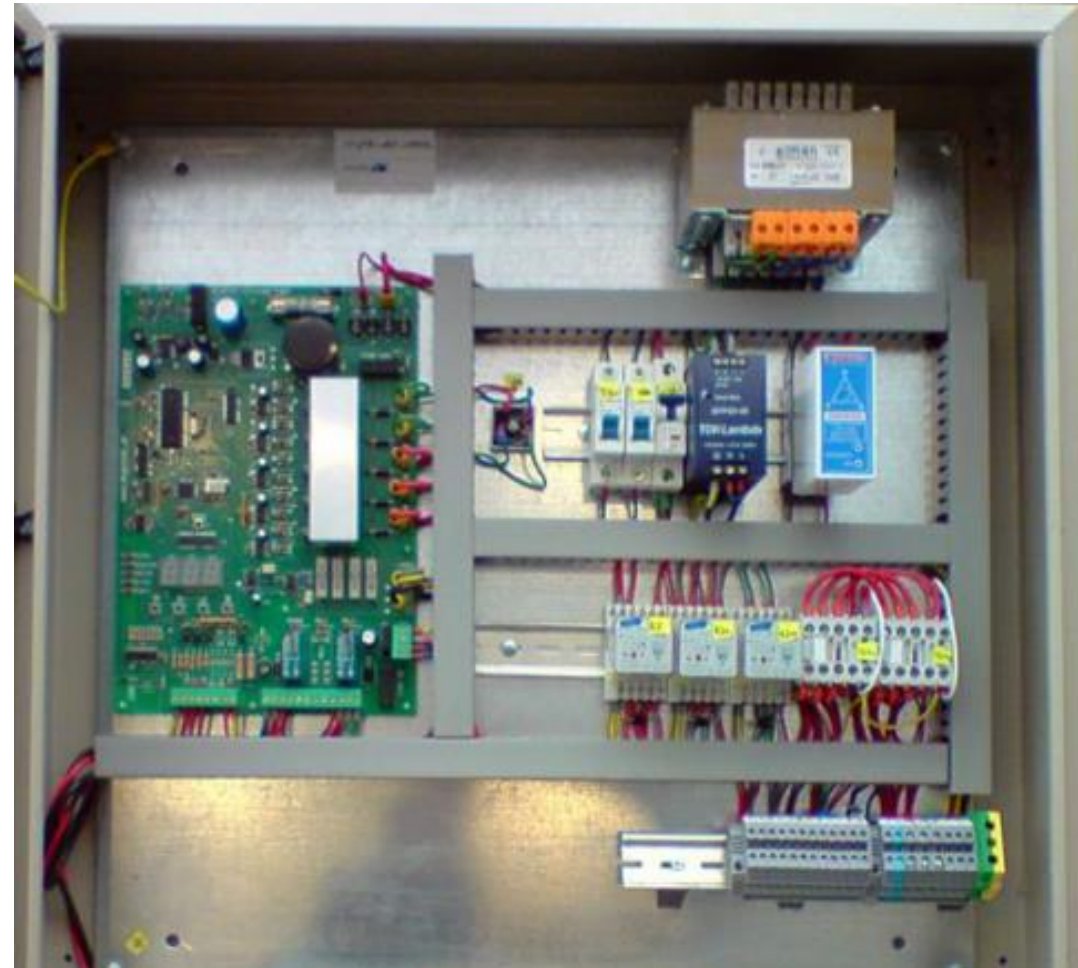

Lift Control Panels

Rescue_device_for traction_lift_controllers__2

Our rescue device can collaborate with all type of traction lift controllers (one or two speed , VVVF)
Rescue device for traction lift controller for motors up to 15HP/11kw (24A)
Traction lift controller
Box 60x60cm² ,4 7Ah batteries, NO +NO magnetic sensors for rescue stop

Rescue device for traction lift controller up to 15Hp/11kw(24A) _____ 700€

3

Traction_lift_controller
with_integrated_rescue
device

(For motors, up to 15Hp/11kw (24A), the
rescue device can be into the lift
controller).

StamTec

Lift Control Panels

**3.2 VVVF traction lift control panels (inverter, VVVF)
with integrated rescue device
for motors up to 15Hp /11kw(24A)
Traction lift controller with board Zero
Box 100 x 80 cm², thermal overload relay,1 2,2Ah
batterie,4 7Ah batterie
VVVF traction lift controller with Delta Electronics**

Inc Inverter
4kw/5Hp(11.5A)___2050 €
5,5kw/7,5HP(13A)__2250 €
7,5kw/10HP (17A)__2450 €
11kw/15Hp(23A)___2650 €

**In the price is included magnetic sensors ,
magnets ,filter ,resistance**

**3.1 Traction lift controllers for 2 speed
machines with integrated rescue device.
Box 85x 85 cm², with low and fast speed
thermal overload relay,2.2Ah batterie,4 7Ah
batteries.**

**Controller,magnetic sensors, magnets & relay
11kw___1450 €**

**In the price is included magnetic sensors ,
magnets ,filter ,resistance**

Note:

**When we choose VVVF
Controller it is necessary the
motor rated current (In) be in the
limits Of the VVVF current
output**

οι τιμές

**limits Of the VVVF current
motor rated current (In) be in the**

Hydraulic_lift_controls__4

4.1 Hydraulic lift controller-direct starting Hydraulic lift controller Zero Board

Up to 7,7kw

Box with one door 80 x 60 cm^2 , 2 relays 11kw, without thermal overload relay, 2,2Ah batterie
_____ 725€

7,7-9,5kw

Box with one door 80 x 60 cm^2 , 2 relays 15kw, without thermal overload relay, 1 2,2Ah batterie
_____ 735€

Extras

For hydraulic lift controller with 2 magnets
_____ 10€

Hydraulic lift controller direct starting

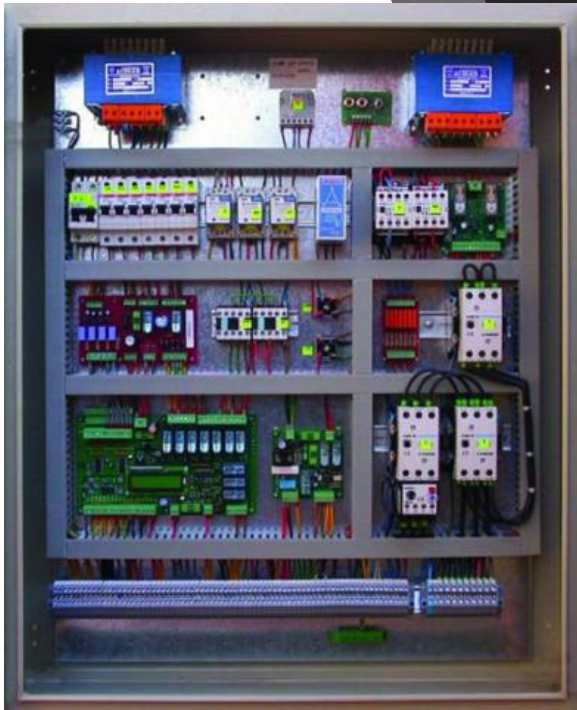

Box with one door 85 x 70 cm^2 , relay 18,5 kw, thermal overload relay ,battery 7Ah
_____ 780€

Extras

Box with 2 doors
_____ 15€

4.2 Hydraulic lift controller delta star connection

Hydraulic lift controller up to 24kw

Box with two doors 85x70 cm^2 3
reinforced relays, thermal
overload relay, 7Ah
batterie _____ 910€

Hydraulic lift controller up to
32kw

Box with two doors 85x70 cm^2 ,3
reinforced relays, thermal
overload relay, 7Ah
batterie _____ 950 €

Hydraulic lift controller up to
16kw

Box with one door 80 x 60 cm^2 ,
without thermal overload relay,
2,2Ah
batterie _____ 800 €

Hydraulic lift controller up to
16kw

Box with two doors 85x70 cm^2
,3 reinforced relays, thermal
overload relay, 7Ah
batterie _____ 850 €

5

Serial
Connection_with
cabin_and_floors

5.1 Revision box with serial cabin board Zero electronic board

Revision box with prewiring Zero
electronic board _____ 160 €

Notes

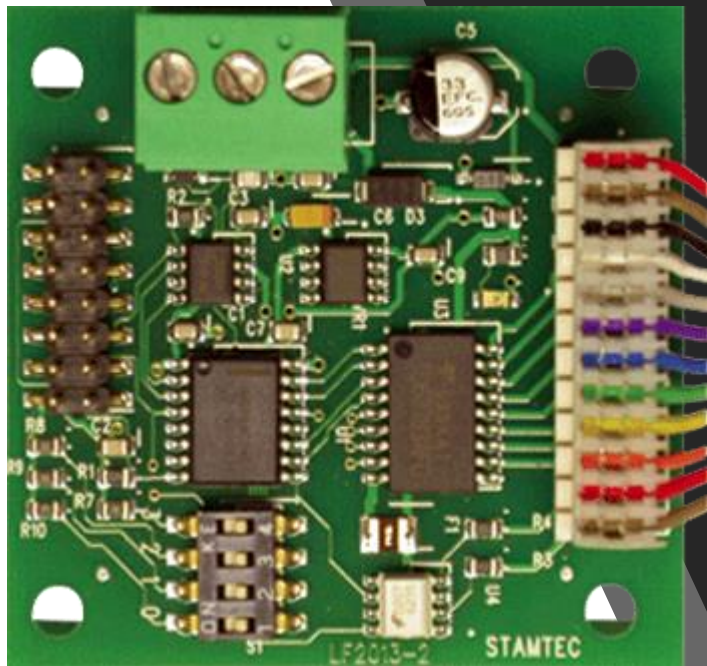

The cabin board provides the possibility for serial connection between the lift controller and the cabin only with three wires.

The board is ensembled in the revision box and allows the controller to be connected to the cabin with only a 24wire flexible cable

StamTec

Lift Control Panels

6.2 Serial floor board long cable

Serial floor board long cable

The floor board provides the possibility for serial connection between the lift controller and the floor only with three wires _____ 22 €

The floor boards can be accommodated in the floor panels or to be placed in the well

They cooperate with all the type of manufacturer.

Functional programming capability for Full Collective -Selective with cabin and floor boards
